Ultraloq Whole-Home Smart Lock System

Ultraloq connected smart lock system gives you complete control of your doors in your home, business or rental properties from anywhere.
Complete Control for Every Door

Control who comes and goes in your entire house including front doors, back doors, interior doors and home to garage doors.

Flexible, Easy and Secure Entry

Open your door through fingerprint identity, code, key fob or smartphone Bluetooth proximity sensor.

Remotely unlock, lock, share eKeys, and view access logs from anywhere. Receive smartphone notifications when someone opens your door.

About Us

We are U-tec.
WE LEAD THE CONNECTED SMART LOCK REVOLUTION.

Making the most of innovation, technology and design, U-tec invents and manufactures Ultraloq Whole-Home smart lock system that fits into any lifestyle that lets everyone in your home access every door in a true keyless way. You have complete control of who comes and goes in your entire house even you are away. You can grant temporary access to your guests, dog walker, babysitter or service provider no matter where you are. Ultraloq integrates seamlessly with major smart home platforms to intelligently interact with other smart devices, which provides unlimited possibilities.
